

System User Contact Details

Produced: 11 November 2023

NZECS users (system users) are classified as being either a Participant, Registrant, or both.

To find out more about Participants and Registrants see the bottom of this document.

The contact details for Participants and Registrants are listed below. This list contains those Participants and Registrants that have agreed to have their contact details recorded here. As such, this list may not be complete and may change as more companies register in the NZECS.

Please contact these companies if you are interested in:

- the services of a Participant
- buying or selling New Zealand energy certificates (NZ-ECs) from or to a Participant or Registrant.

NZECS Participants, Registrants and Energy Users

Participant

A Participant provides the following services to an Energy User:

- Registers an Energy User in the NZECS Registry and administers an Energy User's account
- Negotiates with Registrants to purchase NZ-ECs on behalf of an Energy User
- Receives NZ-ECs transferred from a Registrant on behalf of an Energy User
- Redeems NZ-ECs against an Energy User's energy consumption
- Provides information to an Energy User on the redemption of NZ-ECs.

Registrant

A Registrant provides the following services on its own behalf:

- Registers one or more renewable Production Devices that it owns in the NZECS Registry
- Issues NZ-ECs in the NZECS Registry as it generates from the Production Devices it has registered
- Negotiates with Participants to sell NZ-ECs
- Transfers NZ-ECs it has sold to Participants.

Energy User

An Energy User is an energy consumer that:

- has been registered in the NZECS Registry by a Participant
- has either purchased NZ-ECs or is interested in buying NZ-ECs.

A party may choose to register in the NZECS for more than one of these roles. For example:

- an Energy User may choose to register as a Participant and undertake its own NZECS administration and negotiate directly with Registrants to purchase NZ-ECs
- a Registrant may also act as Participant and thereby enable the sale of the NZ-ECs it issues directly to an Energy User.
